I nuovi orizzonti del mercato | *The new horizons of the market*

Il mercato dei capitali offre nuovi orizzonti e nuove opportunità per gli "avventurieri" del mercato. Le strategie di accesso al mercato dei capitali vivono in uno stato di continuo cambiamento, qui rappresentato da un mare ondosso, il cui movimento è prevedibile solo parzialmente. Garantirsi i migliori strumenti e le strategie più mirate consente di «navigare» in modo sicuro, così come la barca di questa immagine permette di proseguire il viaggio abbracciando le nuove possibilità che il panorama offre, seguendo gli aggiornamenti normativi.

The capitals market offers new horizons and new opportunities for the market "adventurers" the strategies of access to the capitals market live in a state of continuous change, here represented by a sea, whose movement is only partially predictable. To get the best instruments and most accurate strategies will allow to "navigate" safely, just like the boat of this image allows to keep the journey going by embracing the new possibilities the view offers, and following the updates.
